

# Horus ePortfolio – Sending activation emails

## Contents

A.	Purpose.....	1
B.	Locating the “Send activation emails” pages.....	1
C.	Send activation emails page.....	2
D.	Further information .....	4

## A. Purpose

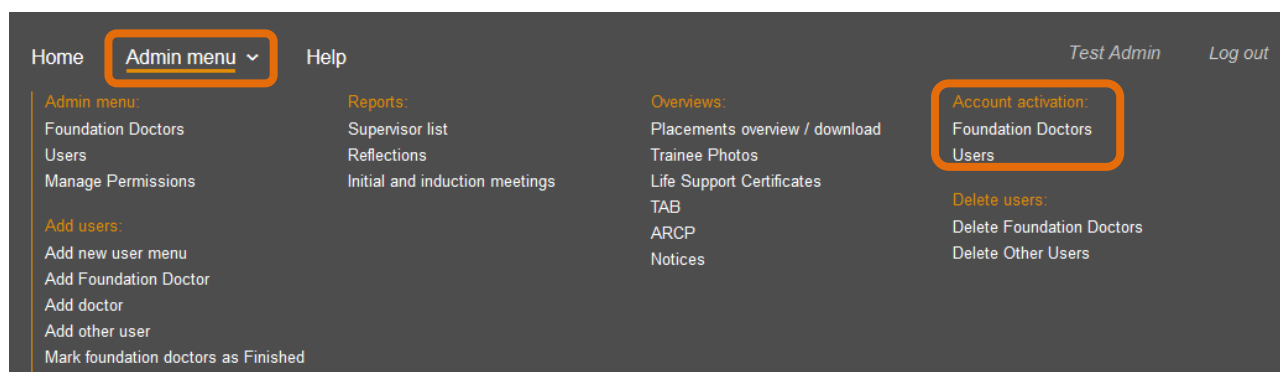

All registered users are able to activate their own account by following the [password recovery process](#).

However, administrators may wish to notify users that their account is ready for activation by using the “Account activation” process within Horus.

Here, administrators are able to send an email from Horus to relevant users that contains a link for them to click, where they will be asked to set up their password for Horus.

## B. Locating the “Send activation emails” pages

1. Click on “Admin menu”
2. Select either “Foundation Doctors” or “Users” from the “Account activation” sub menu

## C. Send activation emails page

1. Select the required organisation at the top of the page
  - This can only be at either trust or site level (that is, not at foundation school or HEE local office level)
2. Select your filters, if required
  - Foundation doctors can be filtered by grade (All/F1/F2) and training year (2017-18/2018-19)
  - Users can be filtered by type (Admins/Trainers)
3. You can select all users, one specific user or as many users as required
  - Select all users by clicking the “Select All” grey box
  - Select a specific user/s from the list by ticking the box next to their name/s in the “Send activation email” column
  - You can use the search box to filter for a specific user

Send activation emails

6. Selected users will receive an account activation email from [noreply.horus@hee.nhs.uk](mailto:noreply.horus@hee.nhs.uk).

## D. Further information

- Account activation emails can also be sent when you create a user manually, by selecting 'Yes' for the "Send activation email" field at the bottom of the add user screen
