Introduction

- NES ePortfolio used by most foundation teams in HEE since 2008
- Horus ePortfolio used by former North Western Foundation School since 2008
 - Developed and maintained by in-house technical team
- Roll out of Horus across HEE
 - August 2016: F1/F2 **former Mersey Foundation School**
 - August 2017: all foundation doctors (FDs) **in England**

The roll-out project

Time	Activities
Feb ⇒ Aug 2016	Modernise system, core content updates, all of North West of England Foundation School (NWoEFS) using Horus
Aug 2016 ⇒ Feb 2017	Addition of HEE locations, overhauling database and functionality, upgrading helpdesk, planning national training
March ⇒ Apr 2017	UAT, training new users across HEE
May ⇒ Jul 2017	New users given access to Horus
Aug 2017	All of HEE using Horus

Future access to foundation information in the NES ePortfolio

HEE is clear that trainee doctors and their trainers and administrators need to retain access to this information.

We are in the process of producing an interface system to hold this information and allow appropriate access.

Further details will follow in due course.

How will this affect...

...medical students due to start foundation in HEE in August 2017?

- They will use Horus

...FDs due to complete foundation by August 2017 (not in the NWoEFS)?

- Unlikely to affect you during your training
- From August 2017 the way you access your foundation information currently held in NES ePortfolio will change

...FDs currently in training but not due to complete foundation by August 2017 (not in the NWoEFS)?

- NES ePortfolio until August 2017, then Horus
- All FDs in HEE using Horus from August 2017 onwards

...FDs in the NWoEFS?

- Have been using Horus since August 2016

Sneak peek...Curriculum

Horus ePortfolio

Portfolio: Dr F1 Trainee

F1: 2015-16
F2: 2016-17

Personal Development Plan

Start new form

Foundation doctors should have a personal development plan for each placement within the rotation. This should set out the specific aims and learning objectives and be based on the requirements for satisfactory completion of F1/the foundation programme. It should also be mapped to the curriculum. At the beginning of each placement the foundation doctor should agree the PDP with their educational supervisor and record it in their e-portfolio. The PDP should form the basis of all appraisal discussions.

Once objectives have been achieved, they can be ticked off. They will remain on the PDP page to reflect your achievements throughout training. PDPs can be used for learning objectives related to your curriculum outcomes or learning objectives that do not relate to your curriculum (for example career management goals, research goals, etc).

Personal Development Plan Forms

Started	Title	Achieved?	Open
22-Jul-2016	PDP for first F2 placement	No	Open

Training

- Requirements are extensive
- Robust training vital for successful roll out
- Training tools produced by Horus team with support provided by e-Learning for Health
- Please contribute in any way you can to national and local training plans
- National training dates set across most HEE regions – March-April 2017

How can you get involved?

- You all use the foundation e-portfolio regularly
 - think objectively about what is needed from an e-portfolio
 - you are all represented at the national e-portfolio user group (TAG) – send feedback (next meeting 29 March 2017)
- Feedback/suggestions should
 - describe the problem/situation clearly
 - give specific suggestions for improvement
 - relate suggestions to business benefit
- Volunteer to lead / help with your local training plan

Questions for you to consider

1. What is the most important thing to you when it comes to the medical foundation e-portfolio?
2. In your current e-portfolio
 - what works well?
 - what could work better?
3. What features would you like to see in the future HEE foundation e-portfolio?
e.g. what do you really wish was available now, but isn't?

Thanks for listening!

Any further questions, suggestions or other feedback, you can contact the team at
