This document will be available to the foundation doctor and their Foundation Training Programme Director. Where concerns are raised, a copy must also be sent to the Director of Medical Education where the foundation doctor works for information and to support revalidation processes. This information will also be submitted to the GMC electronically as part of the Deanery/LETB's annual report to the GMC through the ARCP survey.

** By signing the form, the foundation doctor is indicating that they understand and agree that the information will be shared with other parties involved in their training as outlined above. The ARCP Outcome form is the UK-wide agreed method for transferring information pertaining to a revalidation of a doctor in training to another Responsible Officer. Your Responsible Officer may also transfer additional information to another Responsible Officer.*

The foundation doctor's signature on the form indicates that they understand the recommendations arising from the review. It does not imply that they accept or agree with them. The foundation doctor may make an appeal for outcomes 3 and 4 as described in Foundation Programme Reference Guide.

The foundation doctor's signature is required for release of the Foundation Programme Certificate of Completion (FPCC) in the event of an outcome 6.
