Summary Narrative

At the completion of each level of training, prior to the final meeting with the ES, the foundation doctor (FD) is required to complete a written summary on their progress against each HLO (maximum 300 words) referring, if appropriate, to their choice of evidence to support progress against/achievement of the FPCs. The FD should be encouraged to start preparing a short summary of their progress with each of the HLOs at the end of each placement.

The summary narrative allows the foundation doctor to explain why they have chosen the evidence submitted for each higher level outcome and how they think it relates to the foundation professional capabilities for each higher level outcome.
