Which placement does this apply to, if applicable?

--

This form is intended to help you evaluate your learning experience and progress during each placement.

Which learning experiences did you find most valuable and how did they match your needs? What areas did you find most difficult?

--

What feedback did you get from your supervisors to help you meet your objectives?

--

Has your placement differed from your expectations? Has it changed your ideas or thoughts on a career direction? If so, how?

In light of your experiences, how will you adapt your PDP?

Did you take part in any formal educational activity or experience outside the usual clinical duties and generic foundation teaching programme for this placement? If so, what were the key things you gained from these?
